Context

From 20th March 2020 schools and academies were officially closed, parents were asked to keep their children at home, wherever possible but schools and academies were to remain open as care providers only for vulnerable children and children of workers critical to the COVID-19 response - who absolutely need to attend.

From 1st June 2020 primary academies are open more widely with more pupils invited to physically attend the academy site. Secondary schools will open more widely in the same way from 15th June 2020. Every academy has completed a number of risk assessments prior to opening to a larger group of students and safeguarding child protection considerations have been outlined in this document.

This sub-section of the Cowes Enterprise College, an Ormiston Academy Child Protection and Safeguarding policy contains details of our safeguarding arrangements during this period. This addendum should read alongside the academy Child Protection and Safeguarding policy and will operate alongside advice issued by the Local Authority and Local Safeguarding Partners.

We will ensure that where we care for children on site, we have appropriate support in place for them. We will take advice and work with the local safeguarding partners.

We will refer to the Government guidance for education and childcare settings on how to implement social distancing and continue to follow the advice from Public Health England on handwashing and other measures to limit the risk of spread of coronavirus.

Where we have concerns about the impact of staff absence, such as our Designated Safeguarding Lead, First Aiders or members of the Leadership Team – will discuss them immediately with the relevant members of our Trust.

2. Vulnerable Children

- 2.1. Vulnerable children are identified as: children who have a social worker and those children and young people up to the age of 25 with education, health and care (EHC) plans. A child may also be deemed to be vulnerable if they have been assessed as being in need or otherwise meet the definition in section 17 of the Children Act 1989.
- 2.2. Attending education settings is known as a protective factor for children receiving the support of a social worker. It is right that we prioritise support for those who will benefit the most. We are **balancing** this carefully with the urgent need to reduce social contact right across society to support the work to reduce the spread of coronavirus (COVID-19).
- 2.3. Leaders and especially designated safeguarding leads know their most vulnerable children best and will offer additional places to those on the edges of receiving children's social care support based upon risk assessments and need. Eligibility for free school meals in and of itself should not be the determining factor in assessing vulnerability.
- 2.4. It is important to note that some children that have not been 'at risk' previously become more at risk in this new COVID-19 context; there is an expected rise in domestic violence and we must respond by considering who should be offered place at the academy provision and keeping in contact with the child's home. Children potentially suffering from Domestic Violence, Neglect, Abuse, Child Criminal Exploitation or Child Sexual Exploitation will be elevated to the daily contact list to ensure that a referral can be made as soon as there is a concern raised.

- 2.5. It should also be noted, that with the return to school for some year groups, there may be a sharp increase in the number of children that fall into this category that have not previously been considered 'at risk'. The safeguarding team are prepared for this and school staff have been reminded of the need to respond sensitively to pupils' differing experiences during the period of school closure. School staff have been asked to be particularly vigilant, as more children return to school, for signs and indicators that a child may have experienced abuse or neglect. School staff have been trained about how to handle a disclosure from a child, and understand that any safeguarding concerns, including those that relate to the period of school closure, must be referred immediately to the Designated Safeguarding Lead (or deputies) in the usual way.

3. Do vulnerable children have to continue to go to an education setting?

- 3.1. There is a government expectation that some vulnerable children who have a social worker can attend an education setting, so long as they do not have underlying health conditions that put them at severe risk. Further to this, schools and social workers should be agreeing with families whether children in need should be attending school– and the school should then follow up on any pupil that they were expecting to attend, who does not. In circumstances where a parent does not want to bring their child to an education setting, and their child is considered vulnerable, the social worker and Cowes Enterprise College, an Ormiston Academy will explore the reasons for this, directly with the parent and record the outcome on the child protection online management system (CPOMS).
- 3.2. The academy will ensure that the relevant social worker or virtual head is made aware of any vulnerable child that has chosen not to attend the academy. We will work with social workers and virtual heads as necessary to ensure effective monitoring continues of these children.
- 3.3. Where parents are concerned about the risk of the child contracting the virus, the academy and the social worker should talk through these anxieties with the parent following the advice set out by Public Health England.
- 3.4. The academy will consider how to encourage children and young people to attend an education setting where the risk assessment suggests that this is in the best interests of the child. Social workers will remain in contact with vulnerable children and families, including remotely if needed.
- 3.5. The return of whole year groups does not necessarily impact the decision for a vulnerable child to attend school; the process above should be followed whether the pupil falls into a year group that has returned to school or not.

4. Children with an EHCP

- 4.1. From the 20 March 2020, pupils with an EHC plan will have been risk assessed in partnership with parents/carers and the local authority to determine whether they would be able to have their needs met at home, and be safer there than attending an educational setting. Following these risk assessments some pupils with an EHC plan will have been offered a place in school as it was deemed safe to do so.
- 4.2. From 1 June, schools should continue to offer places to all children with EHC plans in all year groups **whose risk assessment determined that it was safe to do so.**
- 4.3. The risk assessments of all pupils with EHC plans who have remained at home should be kept up to date to reflect any changes in circumstances, including changes to coronavirus alert levels and the wider opening of schools to more pupils.

- 4.4. If a pupil with an EHC plan remains at home, it is recommended that the setting and local authority maintains the risk assessment and regularly reviews it in light of changing circumstances to determine whether they can return to school at the appropriate time for them.
- 4.5. Further guidance on updating risk assessment for children and young people with EHC plans can be found at: <https://www.gov.uk/government/publications/coronavirus-covid-19-send-risk-assessment-guidance/coronavirus-covid-19-send-risk-assessment-guidance#updating-risk-assessments>

5. Children Attending Alternative Provision

- 5.1. Where our students are attending an alternative provision the government expectation is that it has remained open. We will continue to record attendance for these children in the same way as children that are attending Cowes Enterprise College, an Ormiston Academy during this time. We will follow the same guideline listed above if any of these children are classified as vulnerable or have an EHCP.

6. Attendance monitoring

- 6.1. From 1st June, academies should resume taking their attendance register and continue to complete the online Educational Setting Status form which gives the Department for Education daily updates on how many children and staff are attending. Academies do not need to complete their usual day-to-day attendance processes to follow up on non-attendance unless the child was expected to attend the academy and did not attend. Where this happens, we will phone the relevant parent or carer to establish that the child is safe and well and the reason for non-attendance. This will be recorded in line with our current attendance processes and where there are concerns about a child, we will follow our usual referral process.
- 6.2. To ensure the above we have communicated with parents and carers to re-confirm emergency contact numbers are correct and asked for any additional emergency contact numbers where they are available.
- 6.3. In all circumstances where a child categorised as vulnerable (see above) does not take up their place in the academy and was expected to attend, or discontinues after a period of attendance, we will notify their social worker.

7. Designated Safeguarding Leads (DSL) and Deputies (DDSL)

- 7.1. The DSL (or DDSL) remains responsible for managing safeguarding within the academy and (with the principal), is responsible for ensuring that safeguarding is effective. The DSL will support the principal in making decisions that will allow the academy to monitor relevant students and ensure that safeguarding is considered as part of any new processes or structures that are introduced to meet the demands during the Covid-19 context.
- 7.2. The DSL (or DDSL) will continue to engage with social workers and attend all multi-agency meetings, which can be done remotely.
- 7.3. The DSL (or DDSL) is responsible for overseeing that pupil attendance is monitored and safe and well checks are in place to allow timely safeguarding referrals to be made or actions taken, should they be required.

- 7.4. The DSL (or DDSL) will ensure that information sharing is effective and timely to ensure that any adults in other educational provisions looking after (academy name)'s children can continue to effectively safeguard them when in that provision.

8. Potential Absence of DSL/DDSL

- 8.1. Please refer to section 1 for the names and contacts of relevant safeguarding contacts during the Covid-19 context.
- 8.2. The optimal scenario is to have a trained DSL or deputy available on site. Where this is not the case a trained DSL or deputy will be available to be contacted via phone or online video (for example when they are working from home). Where possible though the academy will include a DSL/DDSL in each shift in the rota.
- 8.3. Whatever the scenario, it is important that all staff and volunteers have access to a trained DSL or deputy. On each day, staff on site will be made aware of who that person is and how to speak to them if the DSL or DDSL is not on site.
- 8.4. Where a trained DSL or deputy is not on site, in addition to the above, a senior leader will assume responsibility for co-ordinating safeguarding on site. The senior leader will update and manage access to CPOMS and liaise with the offsite DSL (or deputy) and as required liaise with children's social workers where they require access to children in need and/or to carry out statutory assessments at the academy. The senior leader will also ensure that all the responsibilities of the DSL listed above (section 7) will be met.
- 8.5. If a situation occurs where there is no DSL/DDSL/Member of SLT available for the academy on any particular day (e.g. due to unprecedented levels of illness), the most senior member of staff for that day will contact the Regional Director for the academy or Sunita Yardley-Patel to establish who the contactable DSL is for that day to ensure that appropriate referrals are made to relevant agencies in a timely manner. See section 1 for contact details.

9. Reporting a Concern

- 9.1. Where staff have a concern about a child, they should continue to follow the process outlined in the school safeguarding policy, this includes making a report via CPOMS, which can be done remotely if required.
- 9.2. In the unlikely event that a member of staff cannot access their CPOMS from home, they should email the Designated Safeguarding Lead and the Principal (unless they have been informed that other members of SLT are leading the academy due to absence through illness). This will ensure that the concern is received.
- 9.3. During the Covid-19 context, we will ensure that paper copies of the safeguarding referral form are kept at reception to allow any adults working in our academy on a temporary basis (see section 10) to be able to make a safeguarding referral quickly and efficiently. 'Temporary' staff/volunteers will be told how they can access these forms every day that they enter the academy by the person signing them in. Once complete, the form must be handed to the DSL/DDSL or senior leader responsible for safeguarding that day in the academy.
- 9.4. All staff and volunteers are reminded of the need to report any concern immediately and without delay. Disciplinary action will be taken if there is an unreasonable delay making a safeguarding referral to the DSL/DDSL; safeguarding pupils remains our first priority.

9.5. See Appendix I of the full Child Protection and Safeguarding policy for a flow chart.

10. Safeguarding from alternative settings

- 10.1. If in the event that any of Cowes Enterprise College, an Ormiston Academy's pupils are attending another educational provision due to:
- 10.1.1. the academy being temporarily closed due to staff shortages,
 - 10.1.2. the need for a deep clean or
 - 10.1.3. as part of a cluster model

It is the responsibility of the DSL and the Principal to ensure that a sufficiently robust system is set up in advance of this to ensure that relevant information about the child is shared to relevant safeguarding staff in that setting and that safeguarding referrals can be made and actioned in a timely manner. This is especially important where children are vulnerable.

- 10.2. For looked after children, any change in educational setting should be led by the virtual head with responsibility for that child and the Principal /Leadership of Cowes Enterprise College, an Ormiston Academy.
- 10.3. Cowes Enterprise College, an Ormiston Academy remains responsible for the safeguarding of that child and works with the new setting to ensure that safeguarding is effective.
- 10.4. This will include Cowes Enterprise College, an Ormiston Academy's DSL/DDSL contacting the DSL/DDSL at the new setting to share relevant details about vulnerable children pertaining to what makes them vulnerable and what is in place to support that child. Access must be given to Child Protection Plans, Child in Need Plans, ECHPs, or for looked after children their personal education plan and any other formal, relevant information. The name and contact details of the social worker must be provided for every vulnerable child and the name and contact details of the virtual head responsible for any looked after child.

11. Concerns about an adult

- 11.1. Where staff are concerned about an adult working with children in the academy the matter will then follow usual safeguarding procedures. Should there be difficulty in contacting staff members due to absence please contact Sunita Yardley-Patel.
- 11.2. If colleagues are unsatisfied with the response from the person that they referred the concern to, they have a duty to report the concern directly to the Local Authority Designated Office (LADO) that can be contacted at: lado@iow.gov.uk. **Telephone:** 01983 823723.

12. Safeguarding Training

- 12.1. For the period COVID-19 measures are in place, a DSL (or deputy) who has been trained will continue to be classed as a trained DSL (or deputy) even if they miss their refresher training. However, where the training does lapse, the DSL must notify Sunita Yardley-Patel as soon as possible. DSLs/DDSLs will keep up-to-date with safeguarding and child protection matters by signing up to update services such as Andrew Hall and NSPCC who offer regular free updates on safeguarding.
- 12.2. All existing staff have had safeguarding training and have read part 1 of Keeping Children Safe in Education (2019). The DSL will communicate with staff about any new local arrangements and ensure

that they know what to do if they are worried about a child. The DSL will remind staff about the signs and indicators of child abuse and neglect and will outline that there may be an increase in safeguarding incidents with the return of more pupils. The importance of reporting concerns immediately will be reiterated to school staff, this is particularly crucial where students are not timetabled to attend school every day.

- 12.3. School staff will seek to provide reassurance to pupils throughout the transition period in returning to school. Students will be briefed about the school day in an age appropriate manner and staff will acknowledge and listen to pupil anxieties and support children to understand the altered routines.
- 12.4. Staff should be briefed about SEMH issues related to Covid19 that may arise when students return to school and how to identify where students may be struggling with their mental health (i.e. excessively clingy/fearful behaviour, withdrawn, aggressive etc.) Issues could include anxieties about health and safety, issues relating to bereavement and PTSD. For more information, see section 18.
- 12.5. The existing workforce may move between educational settings on a temporary basis in response to COVID-19. Where Cowes Enterprise College, an Ormiston Academy receives staff from another setting (outside of OAT), we will judge, on a case-by-case basis, the level of safeguarding induction required. The minimum will include health and safety related to the setting, contacts for the DSL/DDSL and leadership team and how to make a referral.
- 12.6. Relevant information will be provided to staff members on a need-to-know basis about any vulnerable children that they will be in contact with and the support strategies in place for them. This could include bereavement, a relationship breakdown, or an incident of domestic violence.

13. Safer recruitment/volunteers and movement of staff

- 13.1. It remains essential that people who are unsuitable are not allowed to enter the children's workforce or gain access to children. When recruiting new staff, we will continue to follow the relevant safer recruitment processes, including, as appropriate, relevant sections in part 3 of KCSIE.
- 13.2. In response to COVID-19, the Disclosure and Barring Service (DBS) has made changes to its guidance on standard and enhanced DBS ID checking to minimise the need for face-to-face contact. OAT HR will support and advise Cowes Enterprise College, an Ormiston Academy on how to keep records of where non-face to face checks have taken place so that they can be followed up when the Covid-19 context is no longer relevant.
- 13.3. Where we are utilising volunteers, we will continue to follow the checking and risk assessment process as set out in paragraphs 167 to 172 of KCSIE. Under no circumstances will a volunteer who has not been checked be left unsupervised or allowed to work in regulated activity.
- 13.4. Whilst acknowledging the challenge of the current environment, it is essential from a safeguarding perspective that any school or college is aware, on any given day, which staff/volunteers will be in the school or college, and that appropriate checks have been carried out, especially for anyone engaging in regulated activity. As such, Cowes Enterprise College, an Ormiston Academy will continue to keep the single central record (SCR) up to date as outlined in paragraphs 148 to 156 in KCSIE.

14. Online safety

- 14.1. Where children continue to attend the academy, we will continue to provide a safe environment, including the online environment. This includes the use of online filtering and monitoring systems.
- 14.2. Where pupils are using devices in school, appropriate supervision will be in place and staff and pupils should continue to follow the E-Safety and E-Security policy.
- 14.3. We will regularly remind students who to talk to if they are worried about their safety and how to stay safe online.

Signposts to age appropriate practical support include:

- [Childline](#) - for support
- [UK Safer Internet Centre](#) - to report and remove harmful online content
- [CEOP](#) - for advice on making a report about online abuse

Support for parents and carers to keep their children safe online includes:

- [Internet matters](#) - for support for parents and carers to keep their children safe online
- [London Grid for Learning](#) - for support for parents and carers to keep their children safe online
- [Net-aware](#) - for support for parents and careers from the NSPCC
- [Parent info](#) - for support for parents and carers to keep their children safe online
- [Thinkuknow](#) - for advice from the National Crime Agency to stay safe online
- [UK Safer Internet Centre](#) - advice for parents and carers
- [Let's Talk About It](#) - advice for parents and carers to keep children safe from online radicalization
- [Childnet](#) - a toolkit to support parents and carers to start discussions about their child's online life
- [support for parents and carers to keep children safe from online harms](#), includes advice about specific harms such as online child sexual abuse, sexting, and cyberbullying
- [support to stay safe online](#) includes security and privacy settings, blocking unsuitable content, and parental controls

15. Interacting with pupils online that are not present in the academy

- 15.1. It is important that all staff who interact with children, including online, continue to look out for signs that the child may be at risk of harm or experiencing harm. Any such concerns should be dealt with as per the child protection policy (see section 9) and where appropriate referrals should still be made to children's social care and as required the police.
- 15.2. Online teaching should follow the same principles as normal and in line with new guidance issued in the Covid-19 context (see [Home Working guidance](#) and [Safeguarding and remote education](#)). If staff are unsure, they should seek clarification with the academy leadership before making or responding to any contact from a child.
- 15.3. We will ensure any use of online learning tools and systems is in line with privacy and data protection/GDPR requirements.

- 15.4. When we are in contact with parents and careers, communications will additionally be used to reinforce the importance of children being safe online. It will be especially important for parents and carers to be aware of what their children are being asked to do online, including the sites they will be asked to access and be clear who from the academy their child is going to be interacting with online.

16. Supporting pupils who are not attending the academy in the Covid-19 context

- 16.1. We are committed to ensuring the safety and wellbeing of all our students.
- 16.2. Where the DSL has identified a child to be on the edge of social care support, or who would normally receive pastoral-type support in the academy, the DSL will ensure that a robust communication plan is in place for that child or young person.
- 16.3. Details of the communication level for all children identified as vulnerable will be maintained and held in a secure system. See sections 2-6 for more information.
- 16.4. Communications will be logged in CPOMS under the code 'COVID-19' to detail when communication took place, with whom and any outcomes of the conversation.
- 16.5. Where communication yields a safeguarding concern and incident will be logged onto CPOMS or a safeguarding referral form completed and handed to the DSL to ensure that appropriate action is taken (see section 9 for more information).
- 16.6. This plan must be reviewed weekly to consider any new information relevant to the level of communication or where concerns arise, the DSL will consider further referrals as appropriate.

17. Peer on Peer Abuse

- 17.1. Where we receive a report of peer on peer abuse, we will follow the principles as set out in part 5 of KCSIE and of those outlined within the Child Protection and Safeguarding policy and Anti-Bullying policy.
- 17.2. We will listen carefully and never dismiss disclosures of bullying or abuse. We will work with the pupil(s) involved, discuss concerns with their family and any multi-agency partner required to ensure the safety and security of our pupils.
- 17.3. Concerns and actions will be recorded on CPOMS and appropriate referrals made.

18. Mental Health

- 18.1. Negative experiences and distressing life events, such as the current circumstances, can affect the mental health of pupils and their parents. Colleagues are made aware of this when considering the setting and expectations of pupils' work where they are at home. We will follow the DfE's guidance on providing education remotely.
- 18.2. The DfE's guidance on mental health and behaviour in schools sets out how mental health issues can bring about changes in a young person's behaviour or emotional state which can be displayed in a range of different ways, and that can be an indication of an underlying problem. Support for pupils and students in the current circumstances can include existing provision in the school (although this may be

delivered in different ways, for example over the phone) or from specialist staff or support services. You can access the guidance on [mental health and behaviour in schools for further](#) information.

- 18.3. For wider information about mental health related to the Covid-19 context please see OAT guidance here:

<https://oatoc.sharepoint.com/sites/Covid-19/SitePages/Wellbeing.aspx>

- 18.4. And national guidance here:

<https://www.gov.uk/government/publications/covid-19-guidance-for-the-public-on-mental-health-and-wellbeing/guidance-for-the-public-on-the-mental-health-and-wellbeing-aspects-of-coronavirus-covid-19>

- 18.5. **If you are unable to access any of the links in this policy - please contact Sunita Yardley-Patel who will assist.**
