Recording / Drawing from Observation

Primary source: drawing something real in front of you.
Secondary source: drawing something from a picture.

Drawing –

Tone – How dark or light areas are. A good drawing will have the full range of 'tones' from very dark/black, to very light / white.

Tints- Adding white to a colour to make it lighter.

Shade – Adding black to a colour to make it darker.

Shading – A technique where different tones are added to make an image look more realistic.

Grey Scale- The squares on the left are an example of grey scale.

3 Dimensional / 3D Drawing: an image that has the appearance of being solid or has depth rather than being flat.

Composition- The layout of an image, where things are in a picture.

Still Life – An image made up of a group of objects arranged in an interesting way.

Colour-

Primary –

Red, Blue & Yellow;
They are used to make all the other colours.

Secondary- Purple, Green & Orange.
Made by mixing two Primary Colours.

Tertiary – Made by mixing a Primary & a Secondary Colour together.

Monochrome – One colour in different shades.

Tint Adding white to a colour to make it lighter.

Shade Adding black to a colour to make it darker.

Complementary – Two colours opposite on the colour wheel that make each other look more vibrant when they are together.

Beatriz Milhazes

Is a Brazilian Artist who paints large scale decorative pieces. She started to exhibit her work from around 1984 and is still a prominent artist today. Beatriz Milhazes takes a very positive stance that shows her love and appreciation for the beauty that surrounds us. This philosophy of focusing more on the pleasures of life, rather than it's hardships, is very evident in the shapes, Colours and patterns of each of Milhazes' pieces.

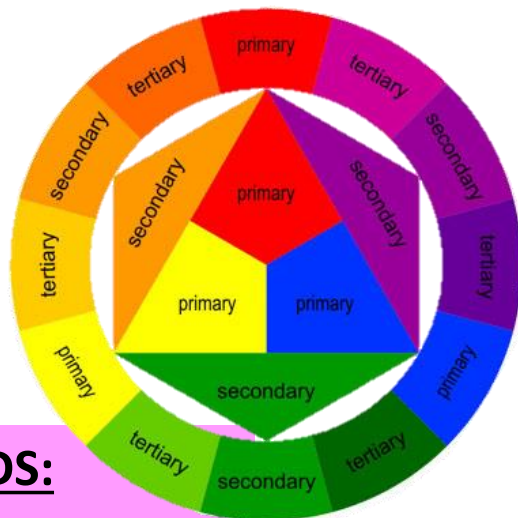

Beatriz Milhazes uses a combination of simple shapes such as circles, squares and rectangles with more organic plant and flower patterns.

She creates a background with blocks of colour and then adds more intricate and detailed layers of pattern over the top.
