

TYPES OF DATA AND GRAPHS

Statistics

Key Concepts

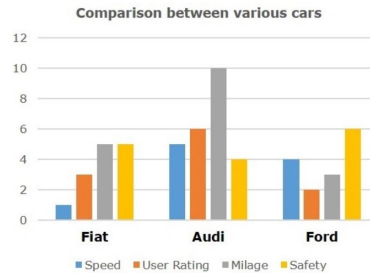

Discrete data: data that can be categorised into a classification, there are a finite number of classifications.
E.g. Hair colour, shoe size, number of children in a class.

Continuous data: data that can take any value. Data that is measured.
E.g. Height, weight, time.

Qualitative data: data that describes something.
E.g. Race, ethnicity.

Quantitative data: data that is in numerical form.
E.g. Statistics, percentages, time.
