Part A: Pupil premium strategy plan

Statement of intent

Our intention is that disadvantaged students make progress that is comparable with their non-disadvantaged peers and above that of students elsewhere.

By using a tiered approach to supporting disadvantage students, including those who are already high attainers. The activities we have outlined in our current strategy are intended for any student who is vulnerable due to the specific challenges they face.

Our priority is quality first teaching and providing impactful intervention, which is supported by evidence. This is proven to have the greatest impact on closing the disadvantage attainment gap and at the same time will benefit the non-disadvantaged pupils in our school. Implicit in the intended outcomes detailed below, is the intention that non-disadvantaged pupils' attainment will be sustained and improved alongside progress for their disadvantaged peers.

The strategy is an integral part of the wider academy improvement plan, which incorporates recovery plans for students who have been worse affected, including non-disadvantaged students.

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Disadvantaged students are generally making less progress in English than non-disadvantaged peers. Diagnostic assessment in Yr7 indicate that 24% of disadvantaged students arrive below age related expectations, with 48% of them at the bottom end of age related, compared to 24% of non-disadvantaged below age related expectation (18% at the bottom end of ARE).
2	Disadvantaged students are making less progress in Maths than non-disadvantaged peers. Diagnostic assessment in Yr7 indicate that 25% of disadvantaged students arrive below age related expectations compared to 16% of non-disadvantaged. Analysis of GCSE results confirm that this 'gap' is maintained during students' time at our school.

3	Disadvantaged students are making less progress generally than non-disadvantaged peers. GCSE results indicate that the attainment gap still exists at the end of Yr11.
4	Our attendance data for the academic year 2023-24 indicates that attendance among disadvantaged pupils has been 5.24% lower than for non-disadvantaged pupils. Our assessments and observations indicate that absenteeism is negatively impacting disadvantaged pupils' progress.

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
Increase in Basics 5+ (English and Maths) at the end of KS4.	PP Students Basics 5+ = 50%
Increase in Basics 4+ (English and Maths) at the end of KS4.	PP students Basics 4+ = 68%
Achieve and sustain Improved attendance for all pupils, in particular disadvantaged students.	PP students attendance = 91%
