

Dear Parents/Carers,

Year 10 students have mock exams between 13th-17th January 2025. This will be an opportunity to track their progress on the GCSE courses and begin the process of preparing them for their final GCSE assessments. It is expected that between now and the mock exams that students engage in revision.

To allow you to support your child in preparing, please follow [this link](#) to an online copy of the revision booklet issued to students last week, which contains details of suitable revision activities and the main topics to revise.

A reminder of the CEC revision method can also be found by clicking [here](#). Also attached to this communication is a copy of the schedule for the assessments.

If you do have questions about any aspects of the assessments, please contact info@cowesec.org stating the subject you would like to discuss.

Yours sincerely,

Adam Brown
Assistant Principal
Head of Key Stage 4
